OCTOBER 2016

UPDATE

AN UPDATE FROM CLUB PROTOCAB MANAGED BY ACC+ESS LIMITED- MANUFACTURERS OF THE PROTOCAB WIRELESS MODEL RAILWAY CONTROL SYSTEM

BATTERY POWER + WIRELESS CONTROL SEMINARS

National Festival of Railway Modelling - Peterborough 15/16th October 2016

Following the success of our seminars at Scaleforum 2016 at Aylesbury, UK, we would like to let you know that Acc+Ess Protocab will be attending the National Festival of Railway Modelling at the East of England Showground, Peterborough, UK this weekend 15th and 16th October 2016.

<https://www.world-of-railways.co.uk/shows/show/the-national-festival-of-railway-modelling/>

Over the course of the weekend we will be running seminars on Battery Power + Wireless Control (BPWC).

The sessions will be the same on both days, Saturday 15th and Sunday 16th October 2016, as per the programme on the right.

Pre-booking is recommended as spaces are limited. If you'd like to attend any of our three lectures on any of the two days, either visit www.protocab.com/contact for a reservation (because spaces inside the tent are limited), or come to the stand on either day and reserve your place. You can also contact sales@protocab.com or telephone 07831 231164.

We hope to see you there!

Programme for both Sat 15th and Sunday 16th October 2016

11.00 - Why BPWC and what are the challenges? (repeated at 15.00)

12.30 - Considerations for converting to BPWC

14.00 - The future of BPWC
